

## Implementing Web Application

Name	Mandi Obulreddy
Roll no	111419104058
Team ID	PNT2022TMID24071
Project Name	Inventory Management System for Retailers

### TASK

#### ➤ Create UI to interact with application

- Registration Page
- Login Page
- Display items in the Dashboard
- Adding items
- Test it

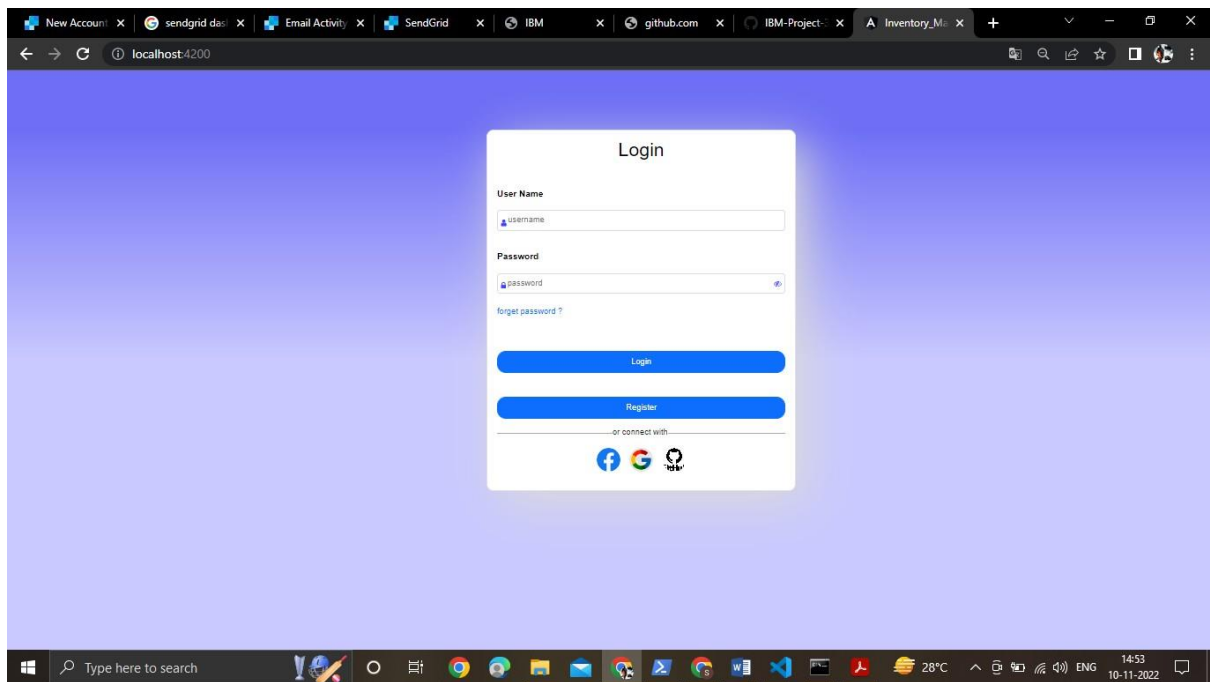

#### ➤ Create IBM DB2 and connect with Node.js

## Create UI to interact with application

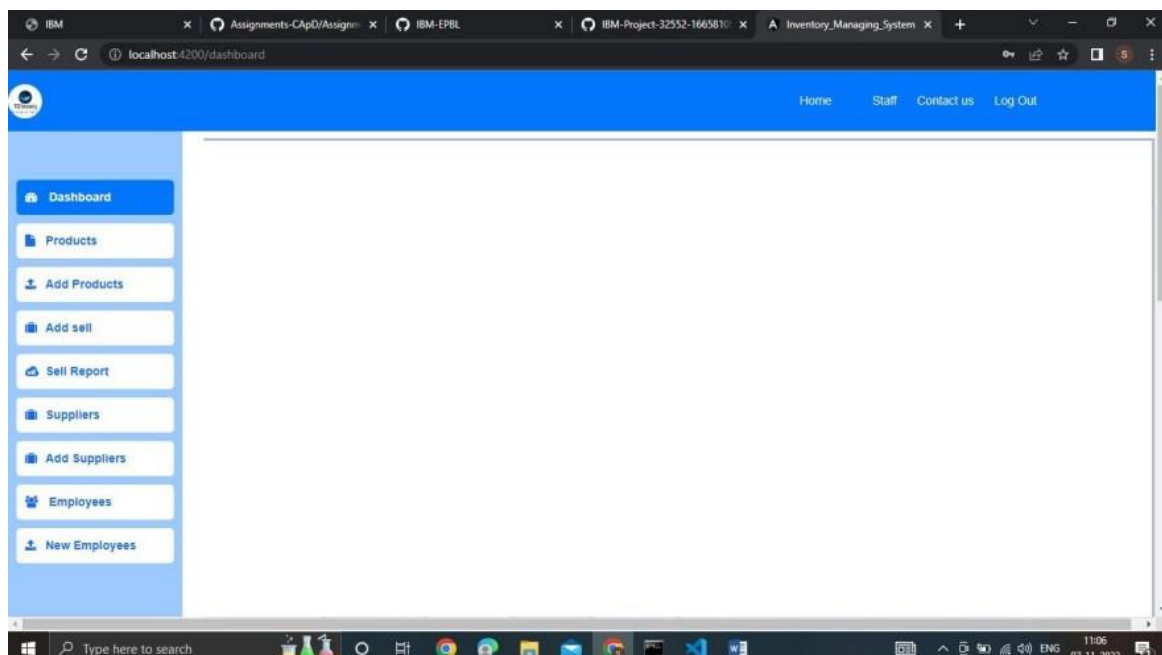

### Registration Page

The screenshot displays a web browser window with multiple tabs open. The active tab is 'Inventory\_M...' showing a 'Create New Account' registration form. The form includes input fields for 'User Name', 'Email', and 'Password', each with a small icon to its left. Below the fields are two blue buttons: 'Register' and 'Login'. A link 'Already Have an Account' is positioned between the two buttons. The browser's address bar shows 'localhost:4200/signup'. The Windows taskbar at the bottom shows the search bar and various application icons, including Chrome, Edge, and File Explorer. The system clock indicates 14:53 on 10-11-2022.

## Login Page

## Display items in the Dashboard

## Adding items
